FOR IMMEDIATE RELEASE

**Intelisys Communications, Inc. Honored
at ACC Business' Club Unlimited Awards Luncheon
as a Platinum Cup Winner**

ROCHESTER, N.Y., April 16, 2008 — ACC Business is pleased to announce that Intelisys Communications, Inc. has been recognized as a Platinum Cup Club Unlimited award winner for the fourth straight year. All winners were honored at the ACC Business Club Unlimited Awards Luncheon, during the 2008 Channel Partners Conference & Expo in Las Vegas.

“Our relationship with ACC Business,” says Rick Dellar, co-founder of Intelisys, “is one of our most important and valued relationships. We are honored to be recognized as a Platinum Cup recipient for 2007 and are committed to enhancing the relationship between ACC Business and Intelisys as we move through 2008. We would also like to thank the many, many Intelisys Sales Partners who have placed their ACC Business traffic through Intelisys. This recognition is really theirs.”

Founded in 1994 by industry veterans Rick Dellar and Rick Sheldon, Intelisys is the nation’s leading Master Agency distributor of business communications services representing over 30 top performing telecommunications service providers. Intelisys provides these services through an elite network of the industry’s most accomplished and professional independent telecom consultants and value-added resellers. Intelisys is the only telecom Master Agency focused exclusively on meeting the demands of the industry’s top-producing independent sales organizations.

In 2006, Intelisys completed its merger with Resource Communications, an industry-leading telecommunications solutions provider founded by owner Dana Topping. Today Intelisys is a full service solutions provider offering services ranging from enterprise-class hosted software solutions for telecom financial management to mobility services, infrastructure, and managed services.

During the recent awards luncheon, 29 recipients were lauded for their sales performance in 2007. Special honors were given to 8 Platinum Cup recipients and 16 Sales Achievement award winners. The 2007 Platinum Cup Award winners represented

agents with new in-year sales production of over \$100,000, and the 2007 Sales Achievement Award winners included agents who produced between \$35,000 and \$99,000. In the Special Recognition award category ACC Business recognized 5 Momentum Agents.

“The Club Unlimited awards give us a chance to honor the agents that work so hard for us all year,” noted ACC Business President and CEO John D. Baker. “These top performers make ACC Business what it is. They consistently deliver our product with customer service that’s second to none.”

Club Unlimited is a rewards program formed by ACC Business to honor, recognize, and reward an exclusive, select group of agents whose contributions go well above the extra mile for ACC Business. Every year, the company presents the new class of Club Unlimited members with gifts, cash, awards, and public honors.
