

FOR IMMEDIATE RELEASE

Intelisys Business Solutions and PAETEC Software Corp. Announce Strategic Alliance

Denver, CO. and Fairport, N.Y. (March 13, 2009) — Intelisys Business Solutions and PAETEC Software Corp. today announced a strategic alliance agreement that allows small-to-medium (SMB) businesses and institutions to leverage the benefits of an enterprise-class Telecom Expense Management (TEM) solution. The new innovative offer will provide a comprehensive suite of services that are traditionally reserved for large enterprises with multi-million dollar annual communications spend. The agreement coincides with the development of innovative technologies from both companies that enables the integration of PAETEC Software Corp's PINNACLE Communication Management suite with Intelisys Business Solution's customer resource management (CRM) system.

PAETEC Holding Corp. (NASDAQ GS: PAET), based in Fairport, N.Y., is a national provider of innovative communication business solutions. Its PAETEC Software Corp. subsidiary specializes in business management solutions for IT Service Support and Service Delivery operations using the PINNACLE Communication Management Suite. Intelisys Business Solutions, based in Denver, Col., is a subsidiary of Intelisys Communication Inc., based in Petaluma, Cal.

Intelisys Business Solutions (IBS) helps organizations control costs, optimize their use of expense communication services, and improve overall operational efficiencies. Dana Topping, co-owner of Intelisys, Inc., explained, "Communication services are consistently one of the top three expenses for the SMB organization. IBS partners with SMB organizations to help reduce costs and right-size the organization's expensive communication services." IBS offers a full range of services to help organizations manage the entire lifecycle of procuring, provisioning, paying, disputing, tracking ownership, and allocating costs for both landline and mobile communication services. Larry Foster, Vice President and General Manager of PAETEC Software Corp., said, "We are excited about our new relationship with Intelisys Business Solutions. We recognize the new paradigm that IBS now brings to the SMB market by managing the lifecycle of service support and service delivery for both landline and mobile communication services."

The focus of the partnership is to combine the industry expertise of IBS with PINNACLE, a comprehensive, integrated enterprise-class Service Lifecycle Management (SLM) solution. SMB organizations can now concentrate their resources on growing their business without being diverted to manage activities that are not part of their core competencies. IBS offers a flexible and scalable outsourcing solution that is powered by the PINNACLE Communication Management suite. IBS provides a full array of Telecom Lifecycle Management solutions that include:

- Intuitive access to Telecom Service Inventory
- Reconciliation of carrier invoices
- Dispute management services
- Electronic payment notifications
- Account Payable services

- Improved Business Intelligence via real-time financial and operational analysis

"The unique combination of PAETEC/PINNACLE and IBS enables us to provide value-added services to our clientele," said Joel St. Germain, CEO of Global Communications Group, one of the largest independent telecom sales agencies in the U.S. "This will help us save significant time and resources, as well as help us to provide a more timely service to our customers."

About Intelisys Business Solutions

Intelisys Business Solutions, formerly Carrier Solutions, is the result of the 2006 merger of Resource Communications, an industry-leading telecommunications solutions provider founded by Dana Topping, and Intelisys Communications, Inc. Intelisys Communications, Inc., is the only telecom master agency focused exclusively on supporting the channel's top-producing sales agents. Intelisys provides a broad suite of telecom value-based solutions that include carrier voice and data services, wireless and wired access, voice and Web conferencing, as well as mobility solutions.
